Africa Project

You have been given a country in Africa to research by your teacher, if you can no longer remember which country you were given you can do your research based on a country of your own choice.

Your project must include:

The country's flag	Can be copied and pasted, draw, painted etc.
Map of the country	Cut and pasted, drawn, painted?
A fact file	Include important details like: Capital city Population Birth rate Death rate *Anything else you can find out*
A population pyramid	Use the website: https://www.populationpyramid.net/ Can you describe what the population is like using the population pyramid?
Find out what it is like to live in your country of choice	Use the website: https://www.gapminder.org/dollar-street/matrix Most countries are represented on this website. You will need to click on the 'the World' tab near the top of the page and then either select your country or type it in the search box.
Key historical events for your country	Was your chosen country a colony in the past? If so which country colonised? When? Are they now independent? When did they become independent?
Culture	What can you find out about: Festivals? Music? Food? Religion? Art?

You can present your project however you prefer.

You could make a film using a programme like movie maker, create a PowerPoint presentation, a word document, a poster, a booklet.
